

How to Stage a Leprechaun Visit!

Leprechauns cause funny but harmless trouble around St. Patrick's Day. Use these tips to create some evidence of leprechaun chaos in your store, classroom, or library.

INSTRUCTIONS:

1. Overturn some of the furniture or fixtures like chairs, tables, books, or desks.
2. Using green construction paper or washable green paint, create leprechaun footprints on the floor, up walls, or even on the ceiling!
3. Make the water in the toilet bowl green using food coloring. Replace the toilet paper with an empty roll and place some green handprints or footprints on the roll.
4. Fill your designated space with green, orange, and white balloons or streamers.
5. Cut shamrocks out of green construction paper and leave them on mirrors, doors, walls, chairs, and the floor. Alternatively, you can use shamrock shaped glitter or confetti.
